Enter the number of each species seen or heard on the count day. Enter "CW" for any species seen or heard during the count week but not recorded on the count day. The count week is 3 days before or after the count date. Provide documentation for any species in bold print and for any species not listed. For species preceded by #, document if seen away from Lake Michigan or Lake Superior. If you documented your sighting in eBird you do not need to re-document that sighting, simply note there is an eBird checklist.
